“Coming from CVS to USC, I had very strong logistics experience. I wanted to build on that foundation and learn about the broader supply chain. USC has by far surpassed my expectations in building my intellectual capital. It has forced me to think globally but has also taught me the intricacies from end to end of a supply chain. I feel more than ready now to take on any supply chain challenge presented to me.”

Christian Nebergall,

MS Global Supply Chain Management Candidate Class of 2017

“The Masters in Global Supply Chain Management program has given me the breadth of supply chain exposure I was looking for to transition to the next level in my career. The faculty are committed to student accomplishment and the caliber of online/ on-campus students enhances the learning experience. The practical application of the MSGSCM program focuses on how to articulate supply chain’s role and purpose within an organization and create the business case to demonstrate value.”

“The program is ideal because it is truly integrated and has courses created specifically for its own mission.”

“I saw a true commitment of the Center for Global Supply Chain Management to make this a great place for people interested in Supply Chain Research and working on real-world projects.”

Swathi Chukkapalli,

MS Global Supply Chain Management Candidate Class of 2017

“The Masters of Global Supply Chain Management program at USC has been an amazing experience personally and professionally. The real-world content in each course has allowed us to apply those skills to class and professional projects. Our international trip to Singapore & Malaysia truly solidified the global view of the opportunities that companies face in optimizing their supply chains. The interaction between our on-line and on-campus cohort is very close with the easy use of video and data technology. This has been the best decision I’ve made to sharpen the required skills for my long-term professional career in Supply Chain Management.”

Ty Rogers,

MS Global Supply Chain Management Candidate Class of 2017
